Summary

Experienced MERN Stack Developer with a total of 3 years of dedicated expertise in designing, building, and maintaining dynamic web applications. Proficient in a wide range of technologies and tools essential for full-stack development.

Key Skills:

- MERN Stack Development
- React.js, Node.js, Express.js, MongoDB, Redux, Next.js, React native, Typescript

With a strong foundation in the MERN stack and comprehensive knowledge of front-end and back-end technologies, I am well-equipped to take on complex projects and deliver high-quality web solutions. My passion for staying updated with the latest industry trends and my commitment to producing clean, efficient code make me a valuable asset to any development team.

Experience

Frontend Developer (contract)

Stove

Aug 2022 - Present (1 year 3 months)

1. Designing project architecture and preparing the development environment.

2. Built an online shopping website.

Technologies: JavaScript/Typescript, React.js, Redux and React-Query

3. Developed a food ordering web app with many restaurants using it.

Technologies: Typescript, React.js, Redux and React-Query

Full Stack Engineer

Freelancer.com

Jan 2020 - Aug 2022 (2 years 8 months)

1. Created a field-service application with Typescript and React.js.

Gidyson-online-store: Developing, debugging and implementing new features on an E-commerce store. Technologies used Typescript, Next.js, Redux, and React-Query

2. React and Node.js- online food ordering Software.

My part on this job was to develop the UI with React.js, Redux for client state management and React-Query for server state management

3. Bug Fixing - Frontend projects.

Debugging and helping other employees to go forward with their projects.
